

SAVING LILLY'S EYES BENEFIT

LILLIANA J. MURPHY

Ten month old Lilly, daughter of Lisa & Michael Murphy, was diagnosed with Retinoblastoma in both eyes on 1/6/10. There are about 300 cases reported yearly in the United States. Lilly's treatments include 30 hours of chemotherapy once a month for at least 9 months. In an effort to save her beautiful blue eyes... and her life, please come support our cause!
